DETAILED ACTION

On August 24, 2004, an Office Action was sent to the Applicant rejecting claims 1-6. On March 11, 2005, the application was abandoned, because no response had been filed. On November 28, 2005, the Applicant filed a petition for unintentional abandonment. On January 20, 2006, the petition was dismissed. On February 20, 2006, the petition was renewed. On February 2, 2006, the Applicant filed a response to the outstanding Office Action. On March 16, 2006, the petition was granted.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 1-6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Tealdi (2001/0029482) in view of Campbell (2002/0023033).

Although the Examiner has pointed out particular references contained in the prior art(s) of record in the body of this action, the specified citations are merely

representative of the teachings in the art as applied to the specific limitations within the individual claim. Since other passages and figures may apply to the claimed invention as well, it is respectfully requested that the applicant, in preparing the response, to consider fully the entire references as potentially teaching all of the claimed invention, as well as the context of the passage as taught by the prior arts or disclosed by the Examiner.

Tealdi discloses the invention substantially as claimed, as set forth in the previous Office Action. Tealdi further discloses that profits are made from selling mortgage-backed securities (p.1, 12-16 and p.15, 185). Tealdi does not disclose providing an electronic ticket having trade data thereon, inputting the electronic trade ticket into the computer system, providing a trade confirmation creator, preparing a trade confirmation document, providing the trade confirmation document to the buyer and seller by e-mail for review by them, or revising, if necessary, the trade confirmation document, based upon comments from the buyer and seller. Campbell teaches a method for brokering transactions comprising providing an electronic ticket having trade data thereon (p.1, 4-8; p.3, 42; and p.8, 82 to p.9, 94); inputting the electronic trade ticket into the computer system (p.1, 4-8; p.3, 42; and p.8, 82 to p.9, 94), providing a trade confirmation creator (p.1, 4-8; p.3, 42; and p.8, 82 to p.9, 94), preparing a trade confirmation document (p.1, 4-8; p.3, 42; and p.8, 82 to p.9, 94), providing the trade confirmation document to the buyer and seller by e-mail for review by them (p.1, 4-8; p.3, 42; and p.8, 82 to p.9, 94), and revising, if necessary, the trade confirmation

document, based upon comments from the buyer and seller (p.1, 4-8; p.3, 42; and p.8, 82 to p.9, 94). It would have been obvious to one having ordinary skill at the time the invention was made to incorporate the teachings of Campbell within Tealdi for the motivation of providing full electronic trading capabilities of the loans.

Response to Arguments

Applicant's arguments with respect to claims 1-6 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
